

EASY TO BUILD

IDEAL FOR:

- EVENTS INDUSTRY
- EXHIBITORS
- RACE MEETINGS
- VANS
- TRACKS & TRAILERS

VEHICLE AWNINGS

Our range of Windout Vehicle Awnings are tailor made to suit your vehicle. We also offer Modular Framed Awnings, see brochure for more details.

OUR CUSTOMERS say 'The good news is, despite gale force winds and other vehicle awnings getting totally trashed, our BARKERS Marquees awning suffered NO damage!'

EASY TO USE

Your Awning can be installed in minutes! Simply wind out the Awning by hand or motor, fit the legs and enclose the fabric edge within the framework using our keder system.

RETRO-FITTED

Your Awning is custom made and retro-fitted to your vehicle. They can be fitted on small to medium Panel Vans as well as large Trucks and Trailers. The cassette houses the roof fabric and wind out mechanism and is permanently fixed to your vehicle. We prefer to fit Awnings at our work premises.

BRANDING OPTIONS

We can print your Awning with full colour, digital images to show your logo or graphics. You can choose from a variety of coloured fabrics to match your corporate colours.

PRODUCT RANGE

We offer **Light Weight and Heavy Duty** Windout Vehicle Awnings to suit your budget and requirements. Both types use a compact, state of the art cassette with robust framework and fittings.

Roof only or full Awning – You can choose between a roof only or full awning, which has all three sides enclosed. Alternatively you can specify your own combination! We offer various options such as windows, internal partitions and vehicle skirts.

WINDOUT VEHICLE AWNINGS

PRODUCT SPECIFICATION

Vehicle Awning

Ideal for larger trucks and trailers or frequent usage.

Size – varies from width along the vehicle 2.9m to 7m, with projection up to 3.5m

Fabric & Colour – Easy to clean, PVC/vinyl fabric. Standard colour is 'off white', special colours are from over 30 options (swatch available on request).

Cassette – starts from 197 x 140 mm section dimensions, depending on fitting type & awning size. Can choose silver or white box finish.

Flexibility - Awnings can be divided into separate sections to provide hospitality, promotional or private areas as required.

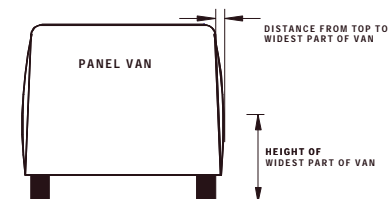

Framework - for hard standing surfaces where pegging down is not possible, an aluminium base frame is recommended. The adjustable legs cater for uneven ground and variations in height.

Optional Extras –

- Windows (picture or plain, square or arched, with or without privacy panel), internal dividers, extra openings and vehicle skirts.
- With or without hard standing base.
- Special brackets to fit your vehicle may be available on request.
- Choose either a manual or motorised wind out mechanism.
- Add graphics / banners to suit your Corporate logo
- Choose from a variety of coloured fabrics (dependent on Awning type)

MADE TO MEASURE

Please tell us your vehicle's make, model, year.

Please provide a photograph where possible!

Please measure your vehicle and provide us with:

- Length of body which can support the Awning
- Awning projection you require
- Height of Vehicle

Optional measurements for Panel Vans

- Distance from top to widest part of the van
- Height of widest part of van

Optional measurements for Vehicle Skirts;

- Height of Underbody
