

A PROFESSIONAL LIGHTWEIGHT FRAME TENT SYSTEM

IDEAL FOR:

- SHOWS
- EXHIBITIONS
- WALKWAYS
- SMALL FUNCTION ROOMS
- CATERING AREAS
- SMOKING SHELTERS

CLEAR SPAN FRAME MARQUEES - features

- Free central area with no centre poles or guyropes.
- Erected on all surfaces including tarmac, paving or concrete.
- Can be built over existing structures, guttered together, added to buildings and accommodate changes in levels.
- High quality channellised aluminium frame with galvanised steel joints gives durability and strength.
- Framework components are highly interchangeable, maximising the flexibility of the system and minimising stock management.

QUICKFIT FRAME TENTS - is ideal for smaller functions. It is a lightweight version of our Aliframe Tent range, with many of the parts interchangeable.

SIZES - From 3m to 6m spans with add on sections (bays) in 3m or 4.5m lengths dependent on span.

QUICK AND EASY TO ERECT - Lightweight, no special skills or equipment is required. For greater stability we offer guy ropes, weight bags and car plates.

ROOFS and WALLS – White or coloured, PVC roofs and curtain side walls with zips to all sides. Windows and gutters are optional extras. Packed in protective bags.

CUSTOMISED BRANDING – We can customise your tent with logos, graphics and company colours as well as advise on the best way to fix your display boards, exhibition stands or flags.
